1 About Us

Who We Are

At International Security & Communications Company, or well known as **ISC**, we continue to adapt a state-of-the-art technology, methodology, and practices, helping project owners, and end users by designing, installing, and maintaining a variety of solutions for various Low Current Systems.

As a leader with 40+ years of rich experience in the field of system integration in the Kingdom of Saudi Arabia, we strive to provide reliable systems, safe and secure environments so you can focus on what is important to you.

Let's integrate solutions together with ***i S C***

From CONCEPT

To COMPLETION

System Intergration

Complete offering from optimum proposals that anticipate the next generation of Technology... solutions Designed for Today, Ready for Tomorrow.

Our Culture

Mission

Serve the needs of our customers and exceeding their expectations with no short-cuts for a world-class solution, contribute to their success, demonstrate a great deal of professionalism and dedications to achieve a common goal, ensuring successful project completion, provide welfare and development for our dedicated employees.

Vision

View each client requirement as a challenge to be done right and on time. Aim to be at the forefront and maintaining our leadership in this field of electronic integrated solutions and innovation, setting the standard for excellence and sustainability in the industry.

Work Values

Absolute honesty in our business activities, providing confidence to our customers.
Integrating workflow systems that facilitate the efficiency from design, proposal, to project completion.
Be innovative and creative to provide a top-quality service, being flexible to meet the needs of our customers.
Demonstrate professionalism and dedication ensuring successful projects.
Adhere to international standards and maintain our technological edge from product selection to solutions, and services.
Respect, support and encouragement to staff development.

Success Formula

We believe in leveraging cutting-edge technology to drive integration and deliver exceptional results. Our approach is centered around these core philosophies being the key to our continued success:

Customer-Centric Solutions

- ✓ First and foremost, our clients who provide us the challenges and not just business. We prioritize understanding our clients' unique needs and tailor our solutions to meet their specific goals. By putting our customers first, we ensure that our technology serves their business objectives effectively.

Collaborative Culture

- ✓ Second, our dedicated employees. Our team employs agile practices to stay flexible and responsive to changing requirements. This allows us to deliver high-quality products and services efficiently, while continuously improving and adapting to new challenges.

Agile Methodology

- ✓ Third, we foster a collaborative environment where creativity and teamwork thrive. By encouraging open communication and knowledge sharing, we empower our employees to innovate and excel in their roles.

Network of Suppliers

- ✓ And, ISC is a partner to the best product suppliers, who help us foster even more industry-leading and innovative, and comprehensive portfolio of solutions and services for the government and private sectors, in multiple markets.

100+ Dedicated Employees

200+ Satisfied Customers

20+ Product Partners

2000+ Completed Projects

Certification

- ✓ Conventional and Addressable System
- ✓ All types of detectors and alarm Devices
- ✓ Sounders and Strobes
- ✓ Integration to other facility systems like BMS and Access Control

Our Services Continued…

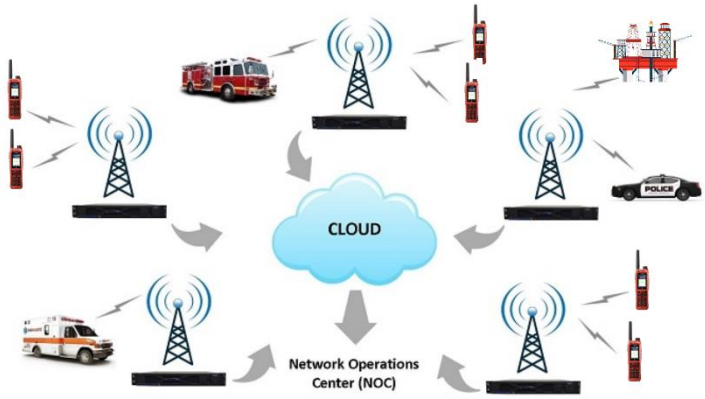

Information & Communication Technology Systems

We leverage IP-based products to enhance connectivity, efficiency, and innovation, driving significant improvements in system integration.

- ✓ Structured cabling and enterprise switches and routers for seamless integration of IP-based systems
- ✓ IP Video Streaming and Telephony to enhance user convenience and experience.
- ✓ Wireless Network to enhance user accessibility and experience, location scalability without the need for additional cables and wires.
- ✓ Several other systems benefiting from the ever-evolving ICT technology, such as Nurse Call Communications, Intercoms, various Multimedia & Audiovisual Systems like Digital Signage and Kiosk, Clock Systems, Automation Systems, Public Address Systems, Uninterruptible Power Supply and more…

Terrestrial Trunk Radio (TETRA) systems

TETRA provides secure and reliable communication in mission-critical operations for Oil & Gas, Government Agency, and Emergency Services, and various Public Safety Networks.

- ✓ DMR/VMR Mobile Radios
- ✓ Base Stations
- ✓ Servers, Recorders, and Dispatching Solutions
- ✓ Antenna Systems
- ✓ RF coverage. Drive Test, and signal measurement survey
- ✓ Test and various other services…

Our Products

Integrated Security & Access Control Systems

Hirsch®, USA
Specialized physical security and access control, video intelligence, and secure identification solutions across various industries
Learn more

Hanwha®, Korea
Innovative video surveillance systems and solutions leveraging advanced technologies such as artificial intelligence (AI), cloud connectivity, and cybersecurity
Learn more

BOON EDAM, Netherlands
Turnstiles, revolving security and access doors, and portals
Learn more

Lenel®, USA
Innovative products for comprehensive physical security solutions including access control, video surveillance and mobile credentialing
Learn more

CAME, UK
Turnstiles, automatic doors, and access barriers
Learn more

PERCo®, Russia
Turnstiles, railing systems and swing gates for security and entrance access control
Learn more

Vicon®, USA
Leader in advanced security and surveillance technology with comprehensive security solutions designed to safeguard various business verticals
Learn more

Milestone®, Denmark
Video management solutions, providing actionable insights from video data through the perfect combination off cameras and sensors with open platform software and analytics
Learn more

Life Safety Fire Alarm & Detection Systems

Edwards®, USA
Fire and life safety solutions for all types of facilities
Learn more

Our Products Continued...

Information & Communication Technology Systems (ICT)

AtlasIED®, USA
Innovative audio communications solutions
Learn more

Belden®, USA
End-to-End networking and connectivity infrastructure solutions
Learn more

BiAmp®, USA
Innovative audiovisual and communications solutions, whether across the rooms or around the globe
Learn more

Cisco®, USA
Information Technology solutions from backbone switches, routers and endpoint devices, software and security across wide range of business verticals
Learn more

CommScope®, USA
Wide range of solutions to enhance connectivity and network performance across various industries
Learn more

HPE Aruba®, USA
Enterprise wired and wireless network infrastructure solutions, from edge to campus, to data center to the cloud
Learn more

Huawei®, China
Enterprise switches, routers, firewalls, and various networking equipment and storages for all types of businesses
Learn more

Rauland®(AMETEK®), USA
A leading global provider of mission critical communication solutions for hospitals, healthcare systems, and educational facilities
Learn more

Sapling®, USA
Synchronized clocks for schools, hospitals, transportation, and various facilities
Learn more

Commitment to After-Sales Support & Maintennce

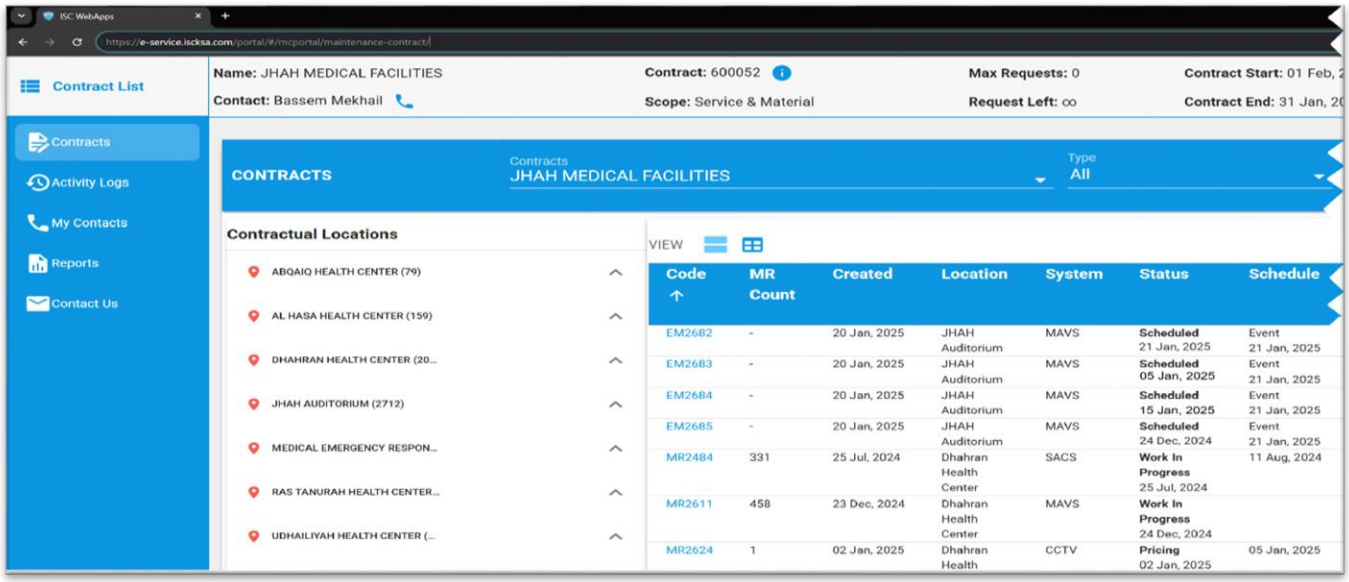

You can always reach us for support through the Web, via Email , or Phone…

https://www.iscksa.com service@iscksa.com +966-13-8980228 +966-13-8943206

We have developed an extensive web-based application specially designed to ensure the efficient support and response to our growing number of service and maintenance contracts. Customers can login to our e-Service Portal to report systems faults online. The system also features scheduled and routine preventive maintenance activities so that our customers are guaranteed their systems are functional at all times.

Our customers can avail a Maintenance Contract to enable them to login to our e-Service Portal to submit maintenance service request and be able to monitor maintenance activities and statuses.

3 Our Customers

Customer's selection of **ISC** underscores its confidence not only in our solution and design but also in our commitment to provide high quality services and responsiveness in support to the systems installed in their facilities. With a dedicated maintenance division and qualified staff equipped with proper tools, ISC is truly committed in supporting its growing customers' loyalty.

"These customers are also advocates who bring new customers through word-of-mouth."
